After receiving the World Games, the city of Cali, in 2013, we consolidated our know-how with many glories never got.

Our athletes were overcome once more and won several medals and records.

A true success.

Of course, all this could not come without great job and a wide effort directive.

Special thanks to the South American athletes receiving medals: Vilma Uchôa and Jose Castillo of Ecuador and Brazil's Ana Castellain, true champions that led to South America at the highest point of our sport.

The FESUPO together Ecuador Federacion American Power hosted the South American Powerlifting 2014 in Guayaquil, Ecuador, a beautiful city.

The city of Guayaquil, Ecuador's capital is a city that lives on tourism and trade.

We hosted 5 countries (Argentina, Brazil, Uruguay, Peru, Ecuador) and over 100 lifters participated. Unfortunately we had opportunity of host Venezuela and Colombia because economic troubles.

One more South American Championships with good organization like in 2013.
